JOSIAH H. HOBBS, Auditor.

REPORT OF SCHOOL BOARD.

[] To the citizens of the Town School District in the Town of Madison:—

We herewith submit our annual report of our school affairs for the year ending Feb'y 15, 1898.

It is with pleasure at the beginning of our report that in looking back a few years we can see that our schools have been increasing in value as well as in length. The Town has been very liberal in appropriating money for school purposes and we take great pleasure in informing you that the benefit the children have received therefrom will more than compensate for the money raised, We hope and trust that the people will continue to maintain the interest they have so recently taken in educational matters, and always be ready to respond to the needs of their children.

During the past year our schools have been very prosperous and the children made great and thorough advancement. We believe the District to have been very fortunate in our selection of teachers; as each seemed well adapted and amply qualified to fill the position for them. They were, on the whole, good disciplinarians, as well as first class instructors. Each kept their pupils interested in their work, which is shown by the very regular attendance of the pupils throughout the town, except at Madison Corner Division, where the common sense type, and governed by parents of whom they inherited their noble nature, were very regular in their attendance and made wonderful progress, while there was a number whose attendance was very irregular, who were more satisfied with idleness and loafing about the stores, or tattling in the streets. If this year was the first time this condition of things had been the result we might well look for the fault in the teachers. but as it has been the usual result for the past ten years especially when the teachers

governed instead of being governed w ; feel warranted in attributing the fault to be in the parents manner of bringing up their children and to the mistake they make in sympathizing with them in their petty silly and whimsical complaints they make of their teachers and the abuse they suffer from them. If the parents would keep the interest of their children in view and take less notice of their nonsensical complaints it would be much more to their credit as well as to the childrens' benefit.

Our school buildings on the whole are in a fairly good condition and respectable. But the building at the Boston and Maine quarry should be finished off and furnished inside as there is no doubt the settlement there will always be permanent. Such being the state of things, the children in this section are not receiving the advantages they should receive. The building at the Nickerson divison also needs little repair and needs painting as does all the rest. While we do not perhaps advise the repairing and painting of all this year we do think it economy for the District that enough be done each year to keep them from ruin. Pleasant school rooms and one's surroundings adds much to the facility with which the mind can grasp the many truths which make up what we call a liberal education.

S. J. GILMAN,
WILBUR G. MARTIN,
School Board of Madison.
